

St. James Preschool
a loving place to learn

Registration Information 2022~2023

Welcome to St. James Preschool!

Making the decision to start your child in preschool, and then going through the process of selecting one that meets your family's needs is challenging. There are so many things to consider, and so much emotion attached to finding a program in which you will entrust the care of your child.

St. James Preschool is an established program committed to creating an environment for your children that is stimulating, enriching, and exciting. While at St. James, we believe that your children will be lovingly challenged to grow socially, developmentally, intellectually, and physically; and receive the best care possible.

We appreciate your interest in our program and your desire to participate in registration. We hope you find this booklet, which describes our philosophy, our educational approach, our class offerings, and our registration process useful as you complete your application. If you have any further questions, please do not hesitate to contact us. We look forward to serving you.

St. James Preschool Philosophy

As a ministry of St. James United Methodist Church, each person involved in the Preschool is called to love as God loves and to provide a loving, nurturing and creative environment for each and every child enrolled in our program.

We are committed to the belief that children develop and learn best in the context of a safe community where they are valued, where their physical needs are met, and where they feel secure. Knowing that children are active learners, we will help children learn to communicate effectively, respect others, analyze situations, exercise reasonable judgments, and solve problems.

The adults in our program are committed to providing a nurturing environment while facilitating children's play. Play is the vehicle through which children learn. While our children are playing, they develop socially, emotionally, cognitively, and physically.

We believe that optimum learning experiences take place in pressure free classrooms that are print rich and visually stimulating. Our classrooms provide children with opportunities to practice newly acquired skills and to experience new challenges beyond their level of present mastery.

When children leave our program, we hope that they will be on the path to developing confidence in themselves and a curiosity in life.

Goals for our Children:

Children enrolled in our program will have opportunities to:

- Participate in large and small group activities
- Develop gross motor skills
- Experience music and art
- Make messes
- Create stories
- Ask questions
- Develop social skills
- Acquire pre-math, pre-reading and pre-writing concepts
- Discover an understanding of the natural environment
- Express themselves
- Learn respect for authority and the rights of others

Curriculum

Based on Piaget's Cognitive Discovery Theory of Development, our curriculum is designed to give the child a variety of experiences at different levels in all academic areas, thus providing success and challenge. The Creative Curriculum is used as the curriculum framework for all classes, infant through pre-kindergarten. The math and reading readiness programs are designed to teach basic concepts and beginning skills. Math readiness is taught using manipulative concrete objects and Math Their Way curriculum, and reading readiness is taught using both the Zoophonics curriculum and language arts. In the writing readiness program, emphasis is placed on large and small muscle development and the eye-hand coordination necessary for writing and our Handwriting Without Tears class. Art is presented with special emphasis on the process rather than final product.

Special Classes

Library

St. James Preschool is proud to offer a friendly and exciting children's library for all its children. Young 3, 3 year old, PreK, TK, and Kindergarten classes visit the library once a week where they are presented with stories and are free to browse the bookcases and make a book selection. The weekly library activity is designed to encourage a love of reading as well as to help develop and teach responsibility.

Playball

Playball, offered to the 3, PreK, TK, and Kindergarten classes once each week, is a program focusing on basic gross motor and movement skills in young children. Young 3 classes begin attending in January.
